

(Trimvent® 4000/TV 90/TV SW/TV Patio only)
(for Trimvent® SM - snib at far end of product)

(Trimvent® Select Vents Only)

For best performance, silicone sealant should be used on external canopy (in sealant groove).

Operation:

1. Open & Close by pushing snib on deflector left or right respectively.
2. Deflector can be tilted to direct air in the desired direction (TV Select vents only, except TV Select Xtra).
3. Do not block ventilator or external canopy/grille.

* Keep vent open as much as possible for a healthy indoor environment *

Maintenance:

1. Wipe Ventilator (and Canopy/Grille if accessible) clean with a damp cloth. Frequency will depend on local conditions.
2. Clean away blockages with a soft brush.
3. Do not lubricate
